

Autumn Cutting

Cut and stick the autumn pictures into your copy or sheet

Autumn Cutting Instructions

Listen carefully to the following instructions. I will only call them out once. Cut out the shape that I say and then stick it into your copy/page.

1. Cut out the shape with the two leaves on the green circle first.
2. Now cut out the shape that has a barrel of leaves.
3. Next cut out the shape with just two leaves.
4. Now cut out the shape with a picture of leaves falling.
5. Lastly, cut out the shape with the autumn trees.
