Educational bingo games are a great way for pupils to learn so many different skills. They help with listening skills, visual discrimination, group work, turn taking and the reinforcement of the learning content of that particular bingo game.

World Cup 2018 Bingo

This bingo game focuses on the flags of all thirty two of the participating countries in World Cup 2018. It is aimed at a class of up to 30 pupils. 30 different Bingo cards are included with the names of 16 of the participating countries. Separate cards with the flag and name of the country are included for the bingo caller.

If you plan to play the game several times, it is suggested that the bingo cards are cut out and laminated. The call cards should also be cut and laminated.

The call cards are shuffled and placed upside down or in a box. When a caller calls out the name of a country, the pupil covers that country's name with a counter/cube. When a pupil has filled a full line (horizontal, diagonal or vertical) they call out "Line". When they have filled the four corners, they call out "Corner". When they have filled the whole cards, they call out "Bingo". This adds to the participation and the enjoyment of the game.
