Sequencing Activities

Sequencing Activity

This resource is aimed at younger pupils and AEN/Special Class pupils. It is to be used to assist pupils in the correct sequence of events, in this case, the steps for drawing pictures of Lego Blocks. There are four sets of sequencing activities in this pack for pupils to complete in the correct sequence.

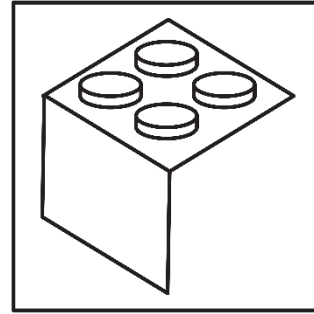

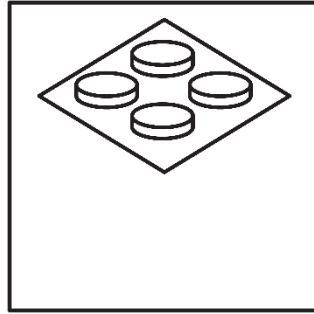

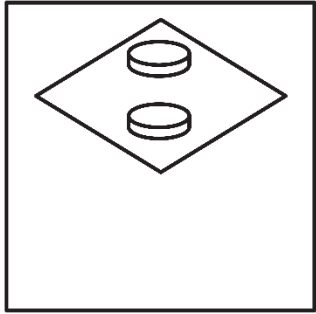

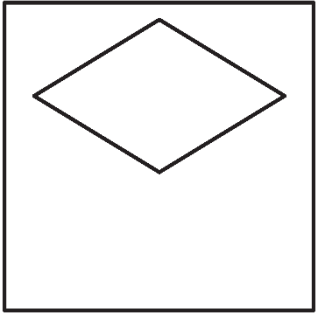

There is a blank space in each card and the pupil is asked to identify which of the spare cards would complete the sequence correctly.

For each activity, cut out the eight long cards and the six small cards and laminate all. Affix Velcro to the blank boxes on the long cards and to the rear of the small picture cards. Place all the small pictures on the Choice Card for pupils to make their selections.

There is a full blank sequence strip to give the pupil an opportunity to sequence all five pictures at once. There is also a fully completed strip to be used for teaching the sequence as well as for the pupil to use as a reference point when completing the sequences.

This activity could be done on a one-to-one teaching basis or it could equally be used at a literacy station during Station Teaching. It could also be used as a cut and paste activity. This activity would also be suitable as an independent task to be completed by the pupil in their work station.
